#### **CALL BLOCK\***

This telephone is built-in with Call Block. This feature will help you avoid nuisance calls by creating a list of numbers you want to block(1) or only allowing some numbers to make your phone ring (2).

#### 1.DEFAULT SETTING IS "ON".

It enables you to reject calls and block numbers one by one when the phone is ringing by pressing **[7]** on the handset.

#### HOW TO BLOCK AN INCOMING CALL & ADD NUMBER TO BLOCK LIST

#### When the phone is ringing and before

answering, press **7** will terminate the call and offer you the option to register the number to the blocklist. **On Handset:** Press <sup>OK</sup><sub>MENU</sub> to confirm.

IMPORTANT: if you don't confirm, the number will not be added to the blocklist and the next call will go through normally.

If you confirm, numbers will be added in blocklist (maximum 100) and automatically rejected if they call again.

#### HOW TO ADD NUMBERS TO BLOCKLIST FROM HANDSET

 $\mathbf{O} \rightarrow \mathbf{A} \mathbf{\nabla} \rightarrow \mathbf{Blocklist} \rightarrow \mathbb{A} \mathbf{\nabla} \rightarrow \mathbf{Add} \ \mathbf{New} \rightarrow \mathbf{Add} \ \mathbf{Add} \ \mathbf{Add} \ \mathbf{New} \rightarrow \mathbf{Add} \ \mathbf{Add} \$  $_{\text{MENU}}^{\text{OK}} \rightarrow \text{enter number to be blocked} \rightarrow _{_{\text{MENU}}}^{\text{OK}}$ 

From call list

Press and hold  $i_P \rightarrow A \nabla$  to select number  $\rightarrow M_{MENU}^{OK}$ twice  $\rightarrow \mathbf{A} \nabla \rightarrow \mathbf{A} \mathbf{d} \mathbf{d}$  to Block  $\rightarrow M^{CK}_{MENU}$  to show selected number  $\rightarrow M_{MENU}^{OK} \rightarrow Saved$ 

#### HOW TO DELETE NUMBERS IN BLOCKLIST

 $\mathbf{O} \rightarrow \mathbf{A} \mathbf{\nabla} \rightarrow \mathbf{Blocklist} \rightarrow \mathcal{M}_{MENU} \rightarrow \mathbf{A} \mathbf{\nabla}$  to select number to delete  $\rightarrow M_{MENU}^{OK}$  twice  $\rightarrow A \nabla \rightarrow Delete/$ Delete all  $\rightarrow M_{MENU}^{OK} \rightarrow Confirm? \rightarrow M_{MENU}^{OK}$ 

2.Instead of blocking numbers one by one, you can select automatic modes that will allow some numbers to ring as follow:

#### HOW TO AUTHORIZE CONTACTS ONLY

Only calls from contacts registered in your phonebook (normal and VIP) will go through and make your phone ring.

To activate this mode:

 $\bigcirc \rightarrow$  Block Set.  $\rightarrow M_{MENU} \rightarrow A \bigtriangledown \rightarrow Contacts OK \rightarrow$ OK MENU

#### HOW TO AUTHORIZE VIP ONLY

In this restrictive mode, only calls from numbers registered as VIP in your phonebook will go through and make your phone ring.

 $\bigcirc \rightarrow \text{Block Set.} \rightarrow \bigcirc (\mathsf{K}) \rightarrow \mathsf{A} \bigtriangledown \rightarrow \mathsf{VIP OK} \rightarrow \bigcirc (\mathsf{K}) \rightarrow (\mathsf{MENU}) \rightarrow \mathsf{A} \lor \mathsf{VIP OK} \rightarrow \mathsf{MENU}$ HOW TO TURN CALL BLOCK OFF

 $\bigcirc \rightarrow$  Block Set.  $\rightarrow \bigcirc^{OK}_{MENU} \rightarrow \triangle \bigtriangledown \rightarrow Off \rightarrow \bigcirc^{OK}_{MENU}$ **Note:** when call block is set to OFF, the call block key on handset still allow you to reject calls and add them to block list, but the numbers stored in block list will no longer be blocked unless you reactivate it.

### **3.ANONYMOUS CALL BLOCK MODE** (OFF by default)

This feature allows you to block calls that do not display a number on your phone. It can be enabled or disabled independently from the previous call block modes.

 $\mathbf{G} \rightarrow \mathbf{A} \mathbf{\nabla} \rightarrow \mathbf{Block} \operatorname{Anonym} \rightarrow \operatorname{Menu}_{MENU} \rightarrow \mathbf{A} \mathbf{\nabla}$  to select one of the options: **Private** / All / Off  $\rightarrow M_{MENT}$ Block private calls

This mode will block incoming calls that have purposely kept their numbers private from you.

#### Block all anonymous calls

This mode will block all unknown incoming calls, including private calls, international calls, pay phone and other out-of-area calls.

\*Subject to subscription and availability of the service from the fixed line operator.
